Yes but they need to meet the college's requirements

Changing majors after being admitted (but before actually enrolling)

No college has indicated that they need a UF GPA but they do need to be originally admissible

Confidentiality concerns when advising at a distance

E-mail – remember to only disclose confidential student record information to a student's official gator link e-mail account

Lync (information from Chris Easley, UFIT EI&O Interim Director, CNS-ERP)

Microsoft purchased Skype ~1 year ago and decided to rebrand Microsoft Lync as 'Skype for Business'. The outcome of that rebranding went in to effect within the past 2 weeks and now folks will see the Skype icon on their desktops vs. a Lync icon. For the most part, this is simply a rebranding – all considerations for secure communications as it related to Lync also adhere to Skype.

All certifications of secure communications related to Lync are still valid as it relates to the use of "Skype for Business" between University of Florida staff/faculty/students for the business of the university. Please make sure you are using the "Skype for Business" application and signing on with your ufl.edu credentials.

Next Meeting: May 21, 2015. Special Guest: Dr. McCollough
